# Call for Speakers

## How to submit your Abstract

**If you would like to present an Abstract, please send your Abstract which shows the presentation idea with short description (max 200 words) to: [stene.kristiansen@qualitynorway.no](mailto:stene.kristiansen@qualitynorway.no)**

If you do not have any specific paper to submit, but would like to suggest a topic, please present your idea to us by September 7<sup>th</sup> 2025. If, after evaluation by the Committee, your Abstract is accepted, you will receive a confirmation from us by October 7<sup>th</sup> 2025.

Please note the presentation should not be commercial, however one commercial slide is accepted.

## Target audience

- Technical and management professionals working with operation and safety of liquid storage in tanks and terminals.
- Personnel working with engineering, design and instrumentation of storage tanks and process safety.
- Companies and personnel competent, certified and accredited for tank maintenance, inspection and integrity management.
- Suppliers of specialized tools and equipment for storage tank operation, cleaning, maintenance and modifications.
- Authorities and inspectors working with storage tank supervision for regulators and governmental compliance.

## Topics

### Operation:

- Emission management and vapor control
- Process control
- Operational and plant safety

### Maintenance:

- Cleaning and waste handling
- Surface and coating
- Inspection and integrity
- Repair and modifications
- Robotized solutions / Machine learning

## Exhibition

Showcase Your Brand at Our Conference – Join the Mini-Exhibition! As part of the conference, we're offering a good opportunity to participate in our mini-exhibition – a dedicated space for companies and to present their latest innovations, connect with decision-makers, and grow their network.
